Design Customization & Pricing Notice

All designs in this catalog are priced for a single print location, regardless of placement (e.g., left chest, full front, or back), and include standard inks unless otherwise noted. Some designs may visually depict a second print location; this is for illustrative purposes only.

- If a second print location is requested or shown, it is the responsibility of the Sales Representative to apply the appropriate additional charge.
- Additional charges may apply for incorporating extra ink colorways (i.e., a second setup).
- Specialty inks, additional ink colors, an increased stitch count, or design work requiring two hours or more will also incur an additional fee.

Prior to production, customers will receive an Art for Approval page to verify all design details and confirm accuracy.
